BizKademy

Digital Learning Solutions

BizKademy
Digital Learning Solutions

We believe in challenging the status quo.
Our goal is to reimagine the way employees learn, by developing and
executing impactful training, to improve performance and inspire focus.

OUR STORY

Being part of the technology sector for 20 years, BizKademy noticed a shift in the way employee trainings are conducted.

As COVID-19 jolted the world out of slumber, trainers and corporations were actively looking for relevant venues to host their trainings.

From this shift, a platform was born: BizKademy. It was founded to provide a holistic digital training solution, encompassing all the way from training development to hosting on Learning Management System.

OUR SERVICES

eLearning Course Development

Our instructional designers help content team in transforming content into online course.

To gain better engagement, solution design tools are being used.

CUSTOM DESIGNED TRAININGS

Instructional design
Our content team assist corporate trainers in structuring their training modules.
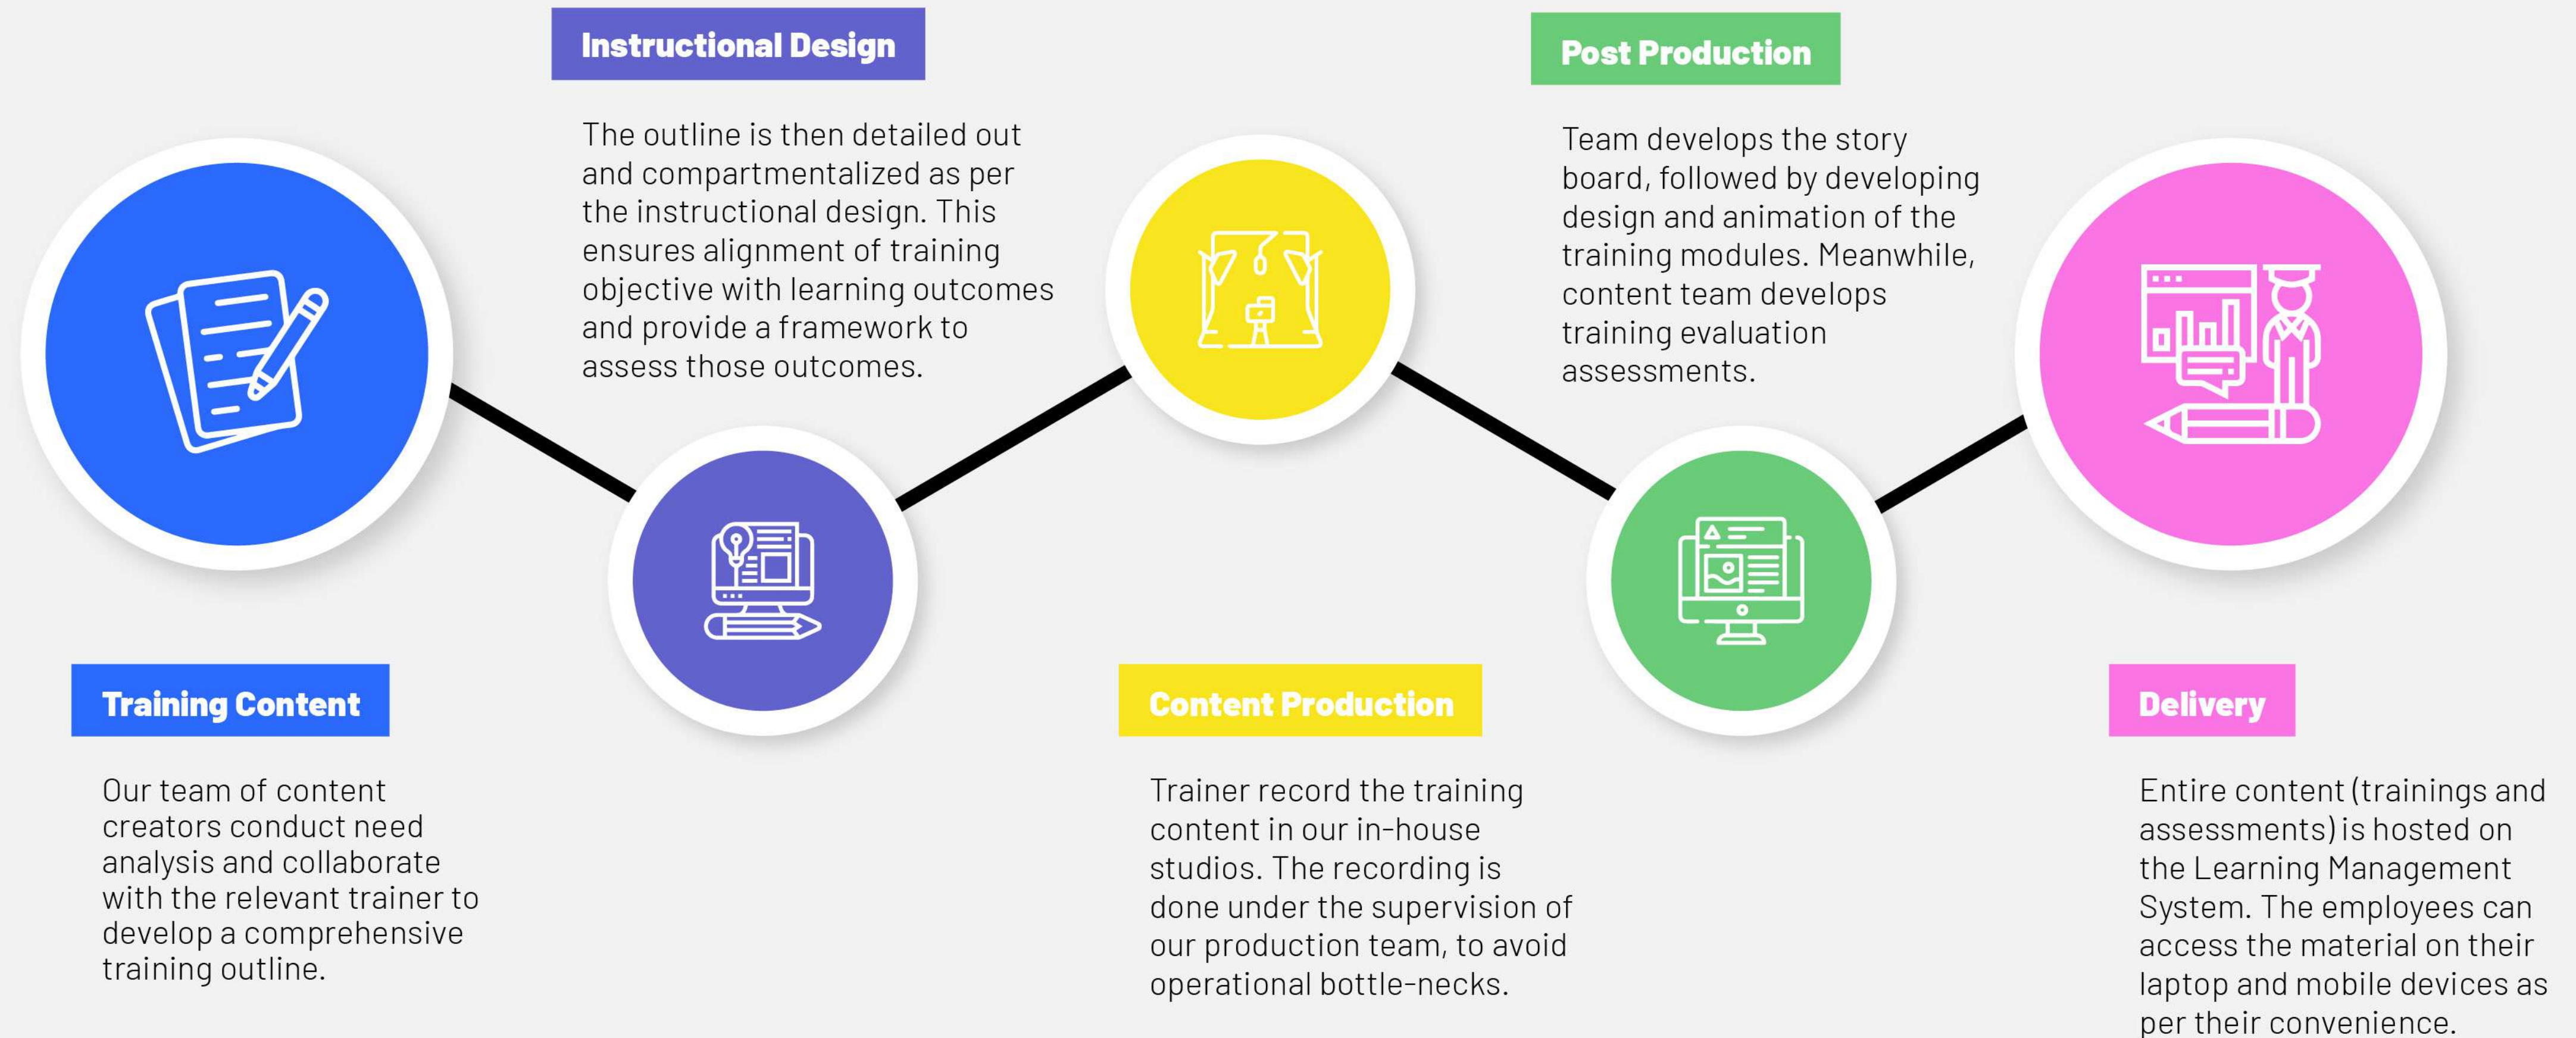

Studio recording
Training is recorded in our studios and sent to post-production team for design and animation.

Content delivery
It is then hosted on the Learning Management System and can be acceded with dextop and mobile device.

OUR PROCESS

Instructional Design

The outline is then detailed out and compartmentalized as per the instructional design. This ensures alignment of training objective with learning outcomes and provide a framework to assess those outcomes.

Post Production

Team develops the story board, followed by developing design and animation of the training modules. Meanwhile, content team develops training evaluation assessments.

Training Content

Our team of content creators conduct need analysis and collaborate with the relevant trainer to develop a comprehensive training outline.

Content Production

Trainer record the training content in our in-house studios. The recording is done under the supervision of our production team, to avoid operational bottle-necks.

Delivery

Entire content (trainings and assessments) is hosted on the Learning Management System. The employees can access the material on their laptop and mobile devices as per their convenience.
