A Tech-Driven L&D Company

What is LMS?

LMS development by Bizkademy is an e-learning hub offering full customizations on the frontend and the backend. Our LMS does not depend on set templates of any open-source software such as Moodle.

Why LMS is Important?

When a company decides to engage its employees in e-learning, it cannot assign them courses in the air. The courses need to be under a proper system and structure so that admins can keep a track of the learning path of each employee and trace their progress and performance through quizzes and assessments incorporated within the courses and shared as a report through the LMS.

How Does LMS Equip L&D Teams?

The LMS enables L&D dept. to bring all workforce under one umbrella where they can access courses and modules on multiple topics **<in a well-structured form | Dedicated Courses for Dedicated Teams>**. Using a unique username and password, employees login to the system.

How LMS Interface Improve the Experience?

Each LMS comes with its own UI/UX User Interface and User Experience, features and integration depending on the need of the client. Calendar, dashboard, leaderboard, discussion forums and analytics enable users and admins to view the performance and progress of each employee in their team. Line managers can use their admin rights to generate reports for their specific department and do the same for each individual as well.

Why BizKademy LMS – BizLearn?

BizLearn is a custom-built Software encoded by our In-house Software Engineers and Technical Teams, Since our LMS is beyond an ordinary LMS, its highly customizable, and it offers full modification and integration of multiple features.

Moreover, since it is **Custom-built** it can add elements and features that make it more relatable for your industry-specific changes such as language customization, content design, etc.

Technical Features and Specifications that are raising the repute of BizLearn?

BizLearn can do Miracles when enter into customizations, however the Basic Version of our LMS can conveniently facilitate the users and the admins to enjoy the following features

How L&D Teams are getting Benefits with BizLearn?

Admin can also use their rights to assign relevant courses to their teams, keep track of their progress, make announcements and collect feedback using different features within the LMS.

As users, an LMS makes it possible for employees to

- ✿ Develop their learning and skills.
- ✿ Choose from a wide range of courses from top trainers of Pakistan.
- ✿ Access courses from anywhere, any time.
- ✿ Keep track of their learning and progress | Start where they left
- ✿ Choose their own learning path.
- ✿ Enjoy self-paced learning.
- ✿ Win certificates, badges and Redeem Rewards and Points
- ✿ Improve performance.

Clients can also choose the features they want to integrate within the LMS and customize the design and layout as per their desire, thus getting full freedom to play around with the tools.

With complete company branding, colour scheme, design and graphics, Bizkademy's LMS personalizes the experience for your employees.
